

SOFTLAYER®

IBM 及 滙港資訊 的「滬港通-as-a-Service」

抓緊滬港通的機遇

通

港交所最近公佈的滬港通計劃為中港投資者提供了跨境投資的機會。此計劃允許香港的投資者買賣滬股通股票，以及國內合資格的投資者買賣港股通股票，並將於今年10月上線。券商必須把握機會，充分利用是次計劃開拓新市場。

「滬港通-as-a-Service」是由IBM及滙港資訊合作推出的綜合雲端跨境證券交易方案。「滬港通-as-a-Service」結合了IBM Softlayer世界級的私人雲端服務及滙港資訊在行內受認可的證券交易平台，是券商理想的解決方案。

多個交易市場及多種交易貨幣

支援以人民幣或港幣對等值買賣上海A股。

整裝代發

快人一步為滬港通作好準備，捕捉了先驅優勢。系統能容易地跟券商其他現有系統整合和運作。

零基本投資

以訂閱制模式收費，免除了券商在基建和軟件認可的基本投資。

動態調整

採用私人雲端計算法作自動容量調整，為浮動的交易容量提供靈活性。

強勁的交易引擎

採用低時延的交易引擎達至高性能交易，並配合優化的交易功能，迎接滬港通在交易及合規性的要求。

把握跨境證券交易的新機會！「滬港通-as-a-Service」結合了滙港資訊強大交易引擎及IBM Softlayer進階私人雲端服務的優勢，是券商進入滬港市場，甚至中港市場的理想方案！

SOFTLAYER®

“滬港通-as-a-Service” by IBM & Infocast

Catch the opportunity of Shanghai-Hong Kong Stock Connect

The recently announced Shanghai-Hong Kong Stock Connect will be launched in October 2014, allowing the cross-border trade of Hong Kong H-shares from China, and Shanghai A-shares from Hong Kong. Brokers must act to capitalize on the opening of this new market.

“滬港通-as-a-Service” is a collaboration between IBM and Infocast to deliver a comprehensive cross-border securities trading solution on the cloud. “滬港通-as-a-Service” combines IBM Softlayer’s world-class private cloud infrastructure with Infocast’s proven securities trading platform for an ideal solution to catch the market opportunity.

Multi-market and multi-currency

Trade Shanghai A-shares from Hong Kong, using both HKD and RMB currencies.

Ready to go

Catch the first mover advantage, with easy integration to operate alongside existing trading systems.

Zero capital investment

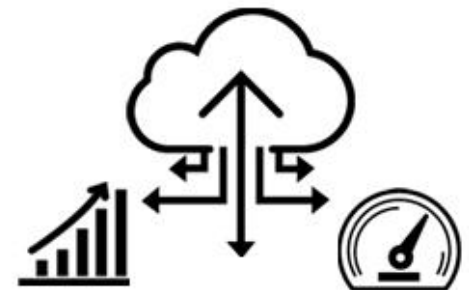

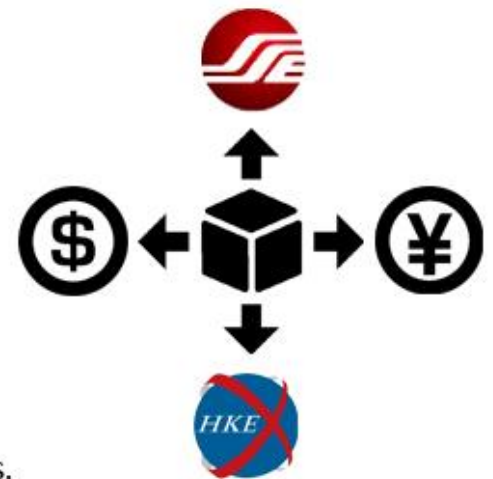

Our cloud service is subscription-based, requiring no capital investment on infrastructure and third party software license costs.

Dynamic scaling

Private cloud computing features automatically scalable capacity, providing flexibility for uncertain trading volume.

Powerful trading engine

Our software uses a low-latency trading engine for high trading throughput, and enhanced trading features for pre-trade and post-trade functionality and compliance.

Don't miss out on the new cross-border securities trading opportunity. Get on board now with “滬港通-as-a-Service”, the ideal solution to move into this new market, with the benefits of Infocast’s powerful trading engine operating on IBM Softlayer’s advanced private cloud infrastructure.
