

Infocast Provides Real-Time Shanghai A-Shares Market Information Upgrade

infocast
滙港資訊

The "Shanghai-Hong Kong Stock Connect" is scheduled to launch this October. The market response has been positive; related stocks have gained, HKEx share price has steadily trended upward, and the HKMA's buying of USD indicates 'hot money' flowing into Hong Kong's equity market.

Investors emphasize the importance of information liquidity from "Shanghai-Hong Kong Stock Connect". Market participants are seeking to offer the best trading experience across front-line trading systems, web-based content and real-time stock quotation.

Infocast has already prepared the InvesTrade solution to assist brokerages to capture opportunities and overcome challenges.

InvesTrade

All-in-one trading solution which is compatible with HKEx Orion and Shanghai-Hong Kong Stock Connect. Market data is provided by China Investment Information Services Limited (CIIS).

The following Infocast products have been upgraded with Shanghai Stock Exchange A-Shares market information:

Investor

Real-time market data and financial news service

iMedia

Real-time stock and financial information service embedded with multi-media content

iPortal

Real-time financial news, listed company information & warrant information for clients' websites

Investor API

Real-time securities information via exchange market data feed

Infocast Mobility

Smartphone application versions of real-time stock and financial information service (as an added service bundled with InvesTrade)
