InvesTrade Enhancement

(version 9.0.5 / InvesTrade)

Infocast will be enhancing all ilnvestor servers by 30th June to ensure the highest performance and reliability.

The enhancement also expands on ilnvestor functionality. It enables a one-stop solution for market data information and stock trading functionality. The enhanced version also supports real-time Shanghai A-shares quotes and market information services via the Shanghai-Hong Kong Stock Connect.

Functions

Speed

Stability

Service

The enhanced version will deliver new functionality, faster speed, more stability and the most comprehensive service for your business. The following value-added services can also be added to the enhanced version:-

SH-HK Stock Connect add-on services*

- 1. Shanghai A-Shares AMS
- 2. Shanqhai Real-Time Indices
- 3. SH-HK Watch List
- 4. SH-HK Most Active List
